October 6, 1995.

Take notice that on October 3, 1995, Wyoming Interstate Company, Ltd. (WIC) requests an extension of time to submit its annual recomputation of Fuel, Lost and Unaccounted-for (FL&U) Percentage, in accordance with Section 24 of the General Terms and Conditions in WIC's First Revised Volume No. 1 and Article 31 in WIC's Second Revised Volume No. 2. WIC requests: (1) an extension of time for submission of its annual FL&U filing until WIC determines the accurate measured volumes for FL&U, but in no event later than February 29, 1996; and (2) continuation of a zero FL&U percent through February 29, 1996, if necessary, to correspond to the extension of time.

Proposed Decision and Order of the Department of Energy

Special Refund Procedures

Name of Firm: Vessels Gas Processing Company

Date of Filing: February 27, 1995

Case Number: VEF-0007

September 28, 1995.

In accordance with the procedural regulations of the Department of Energy (DOE), 10 CFR Part 205, Subpart V, the Regulatory Litigation branch of the Office of

General Counsel (OGC) (formerly the Economic Regulatory Administration (ERA)) filed a Petition for the Implementation of Special Refund Procedures with the Office of Hearings and Appeals (OHA) on February 27, 1995. The petition requests that the OHA formulate and implement procedures for the distribution of funds received pursuant to a Consent Order entered into by the DOE and Vessels Gas Processing Company (Vessels) of Colorado.¹

I. Background

Vessels was a "refiner" of natural gas liquids (NGLs) and natural gas liquid products (NGLPs), which were included within the definitions of "covered products" in 6 C.F.R. 150.352 and in the price regulations promulgated pursuant to the Emergency Petroleum Allocation Act of 1973, Pub. L. No. 93-159. Accordingly, during the period from August 19, 1973 through January 28, 1981, Vessels was subject to price rules set forth in 10 CFR Part 212, Subpart K, and antecedent regulations at 6 CFR 150.1 et seq. An ERA audit of Vessels' business records at the Irondale and Brighton locations revealed possible pricing violations with respect to the firm's sales of NGLs and NGLPs at the Irondale plant during the audit period from September 1, 1973 through December 31, 1977 and at the Brighton plant from April 1, 1975 through December 31, 1977.² Subsequently, on October 7, 1986, the DOE issued a Remedial Order to Vessels, finding that the firm had overcharged its customers and requiring it to remit to the DOE \$1,571,671.40, plus interest. *Vessels Gas Processing Co.*, 15 DOE ¶83,002 (1986). Vessels appealed the Remedial Order to the Federal Energy Regulatory Commission (FERC) (Case No. R087-3-000). While the Appeal was pending, Vessels and the DOE entered into a Consent Order on December 17, 1987, in order to settle all claims and disputes between Vessels and the DOE regarding the firm's compliance with price regulations in sales of NGLs and NGLPs during the audit period. In that Order, Vessels agreed to remit a total of \$1,500,000, plus installment interest, to the DOE for distribution to the firm's customers. The Consent Order became final on February 16, 1988. Vessels has made payments totalling

¹ For the sake of convenience and clarity, "Vessels" will refer to Vessels Gas Processing Company (VGPC) and Vessels Gas Process, Limited (VGPL) in this Decision and Order. In addition, "Vessels" will refer to the operations of Halliburton Resource Management (HRM) at the Irondale and Brighton plants on behalf of VGPC and VGPL. Vessels operated under a contract with HRM, a division of Halliburton Company (Halliburton). Under that agreement, the natural gas owned by Vessels was processed and sold at three plants owned and operated by HRM. HRM was paid or retained a service fee from the sales proceeds. On February 25, 1983, Vessels filed, in conjunction with a "Preliminary Statement of Objections" to the Proposed Remedial Order issued to it on November 5, 1982, a "Motion to Join Halliburton Company and Hold it Jointly Liable for Any Overcharges that are Proven." On May 25, 1983, the OHA gave leave to amend the PRO to join Halliburton. *Vessels Gas Processing Co.*, 11 DOE ¶82,509 (1983).

² The discrepancy in dates between the two plants is due to the fact that the Brighton plant was not fully operational until April 1975.
